

## Are YOUR products the same but different? **Automate!**

From stand alone seats to company-wide access, there is a DriveWorks Design Automation product to suit the needs of most companies creating 'Same but Different' products. DriveWorks is proven technology that lets you automate repetitive tasks to generate accurate design, manufacturing and sales documents and files quickly and easily.

### Design Automation Software for Companies that Design, Engineer and Assemble to Order

- Are your products the same but different?
- Can your products be defined by a set of rules?
- Do you have repetitive design tasks that could be automated?
- Do you want to be able to specify custom products and variations easily and accurately?

### The Easy-to-Use Design Automation Choice for SolidWorks®

Automate your repetitive design, engineering and sales tasks.

Generate the outputs and documentation you need to manufacture and sell variations of your products automatically.

Outputs can include 3D models, 2D drawings, eDrawings, as well as Word, PDF and Excel documents for Quotations, Bills of Materials, Cutting Lists and much more.

### Using DriveWorks:

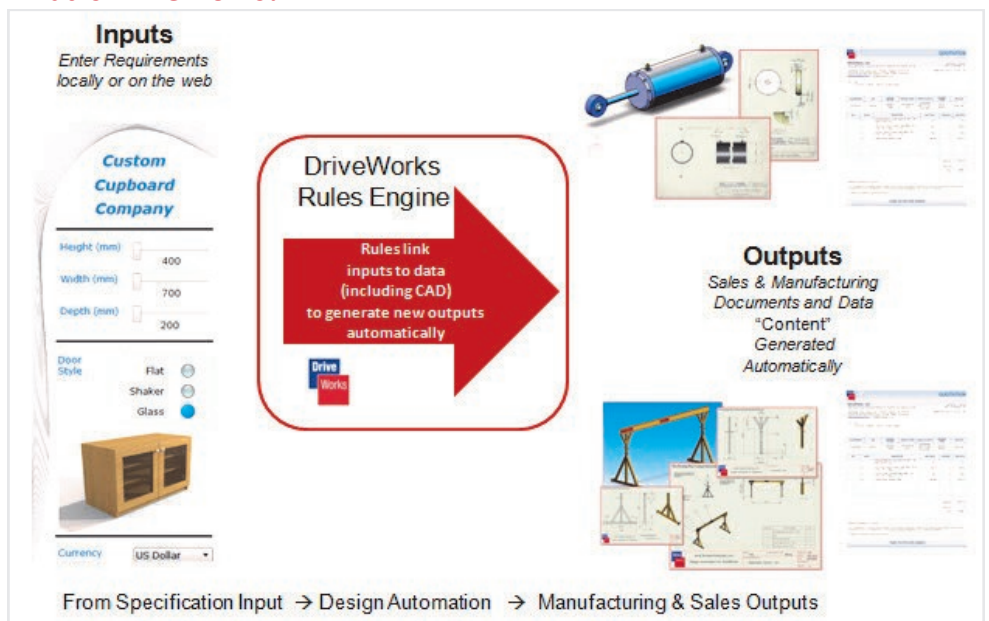

#### 1. Easy to Set Up

Capture items that can change and that you want to control e.g. Dimensions, Features, Names, Documents and Data. Assign your rules and create your custom forms.

#### 2. Easy to Run

Fill out your forms to automatically and accurately create 3D Models, 2D Drawings and Documentation such as Quotes, BOMs and Cutting Lists time after time.

### What is DriveWorks?

### DriveWorksXpress

#### Basic Rules Based Design Automation

Design Automation Wizard included in EVERY seat of SolidWorks®.

### DriveWorks Solo

#### Design Automation for SolidWorks® Users

- Configure & Preview inside SolidWorks®
- 30 day FREE trial
- First year subscription included
- Training & How-To video clips online
- Sample projects included
- Requires SolidWorks®

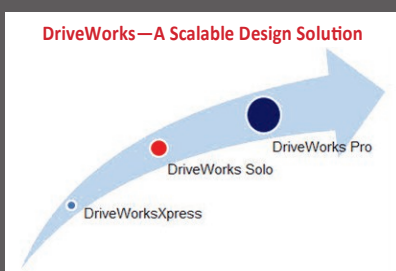

### DriveWorks Pro

#### Design Automation & Sales Configurator Software for use Enterprise-wide and Online

- Modules available:
  - Administrator
  - User
  - Autopilot
  - Live (for the web)

- Fill out forms in a Browser
- Users cannot change the rules
- Results generated by Autopilot\*

### DriveWorks 3D Preview\*

- For the Web
- Works in conjunction with Live

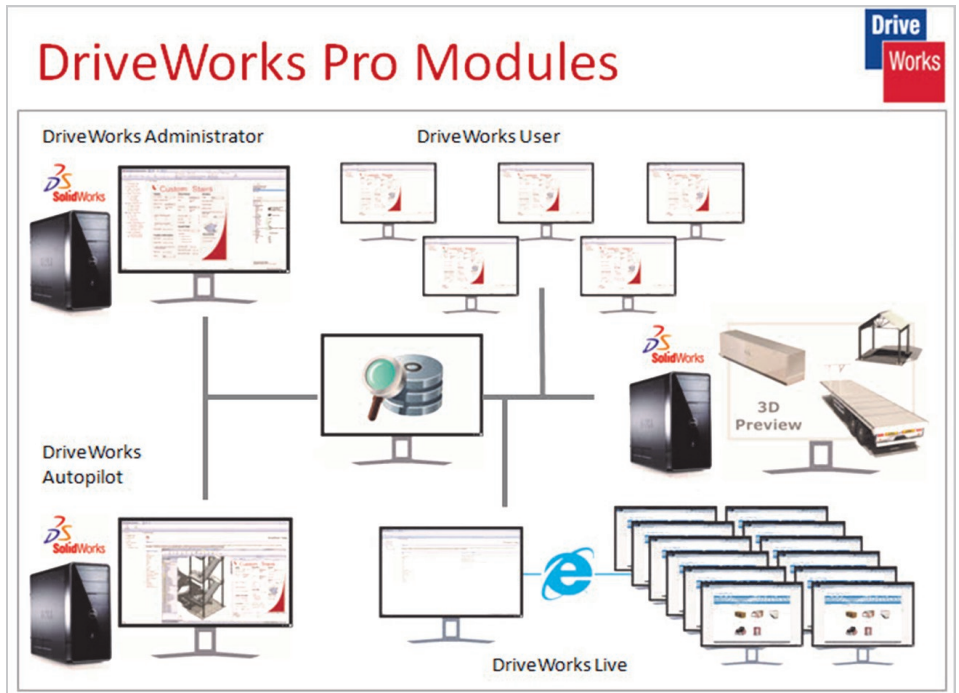

\*requires SolidWorks

## What can you expect from DriveWorks?

**Individual Software Modules in DriveWorks Pro to suit your requirements.**

*Add specific seats as you need them and as you automate more.*

Extend the benefits of Automation to others in the organisation AND to the web.

Use **DriveWorks Administrator** to set up your project.

You can add other DriveWorks Pro modules such as **DriveWorks User** AND / OR **DriveWorks Live** to extend the benefits of your automation project so other people can fill out the forms to design and configure new variations.

Your DriveWorks Project can be used by engineers, non-technical staff, colleagues on the network or external users, such as distributors or customers.

**DriveWorks Live** allows your DriveWorks Forms to be filled out in a browser and can be integrated within your company's existing website.

Run specifications with **DriveWorks Autopilot** and create 3D parts, assemblies and 2D drawings automatically, together with any documents (DWG, DXF, PDF, Word, Excel, JPG, XML) required. Results such as quotes and eDrawings can be emailed based on rules and even passed to other company systems such as ERP and SolidWorks Enterprise PDM.

Impress your customers with 3D previews online using **DriveWorks 3D Preview**.
